

Table S1: Proteomics Data for Responders v Non-Responders to Bortezomib and Thalidomide

Accession	Peptide count
sp P01614 KV201_HUMAN	1
sp P01605 KV113_HUMAN	1
sp P01859 IGHG2_HUMAN	4
sp POCG05 LAC2_HUMAN	3

Proteomics Data (CO4A, APOB and PON1) for Responders v Non-Responders to Bortezomib and Thalidomide. Responders/Non-Responders determination based on day 100 restaging results according to the IMWG uniform response criteria for MM. The table includes information on gene name, measured peptides (used for quantitation), confidence score (MASCOT), Anova (p-value), fold-change, highest/lowest mean and protein description. IMWG: International Myeloma Working Group
